EXPERIENCE

Field Experience – Spring 2025

EDCO 610: Effective Teaching Strategies for Exceptional and Diverse Learners

- While in my field experience at York Comprehensive High School, I had the opportunity to work with a diverse range of students, including students with special needs and an English Language Learner. Co-teaching was implemented throughout my time in the field. I was presented with the opportunity to teach Articulation for the Actor, a micro-teach on improvisation with a new improvisation game, and teach students about different theories of acting. All while implementing high-leverage practices to ensure all students understood the content.

Field Experience – Fall 2024

EDCO 601: Psychology Applied to Education

- While in my field experience at Lewisville Middle School, I was allowed to observe a middle school band classroom with a different range of socio-economic status. During this time, I was able to learn what it was like to administer a formative assessment based on music and music comprehension and help students learn about different breathing techniques while providing scaffolding support to help them learn the new skill. Finally, I gathered information about the school to observe statistics about their national and state exam scores.
